#### TO BE EXPECTED.

When the people of the United States took advantage of the war situation to go into the profiteering game they neglected to take one all-important precaution.

They failed to look beyond the golden hue of their own noses.

As a result of this profiteering craze the cost of everything we produce is sky high, because all labor and materials used have been boosted to the limit of boostability.

Here is the aftermath.

American manufacturers want to ship their goods abroad, but they find the foreign markets in many cases practically closed to them, because foreign made goods are sold for less than we can make them.

Thus we are deprived of much of our foreign trade, and factories are discharging thousands of their employees. Some are shutting down entirely.

Then again, American manufacturers are up against the dumping of foreign made goods into this country for less than we can produce them here. If this condition prevails in future to any considerable extent more millions will be walking the streets in search of employment.

So much for our era of assinine profiteering and price boosting.

But when we listen to the piper we must expect to pay for his music.

The hour for payment has arrived.

The fellow who is always looking for something for nothing might win out by trading himself off for a toothpick.

#### HERE AND THERE.

Young man, if you have a good job in the country, hang onto it. If you want to walk the streets week after week in a fruitless search for work, go to one of the big cities.

Newspapers are not parading the fact, but those who understand conditions in the large cities can tell you that employers are laying off their help in increasing numbers every day, and the end is nowhere in sight. A good country job has many attractions.

The army of the unemployed has none.

The Gulf Ship Co.'s yard is fast becoming the banner barge building plant in this port. New barges are constructed rapidly for the growing Cuban lighterage trade. The British schooner Frances Parsons is undergoing repairs at this yard.

A smile costs nothing, but a frown is an expensive luxury.

#### PRESBYTERIAN CHURCH.

Sabbath school 9:30 a. m. Morning worship, 11 a. m., theme "The Parlor and the Kitchen." Evening worship 7 p. m., theme "The Majesty of the Law." Please note the change in the hour of the evening worship from 7:30 p. m. to 7 p. m. Our services are short and attractive. You are most cordially invited to worship with us. During these days so full of unrest and pessimism you need optimism and rest. And we believe that if you will attend the church of your choice that you will receive the very blessing that your nature demands.

The church with the cordial welcome.

W. P. CHALMERS, Minister.

This world is full of people who know how to run the other fellow's business, but are never able to make a success of their own.

And why shouldn't our American women be the most beautiful on earth? They pay \$750,000,000 a year for rouge, lipsticks and perfume.

Any one can have a good time, if he only thinks so.

The British schooner Frances Parsons, 237 net tons, consigned to Vinegar Bend Lumber Co., arrived in port Thursday from Puerto Padre, Cuba. The American schooner Susie B. Dantzer sailed Thursday for Calbarien, Cuba with lumber cargo.

Many a man of brains is short on common sense.

Don't feel peeved, brother, because your boy knows more than you did at his age. He has you for a teacher.

Of course, we all know that we are our faults, but we are quite convinced that the other fellow has more.

## The Most Wonderful Christmas Gift

Leave it to the little folks to tell you why. Their smiles and laughter as well as sheer delight in hearing their own Columbia Grafonola on Christmas Morning, will surely convince you that here, indeed, is a most wonderful gift. Every member of the family is going to enjoy this beautiful instrument. Scientifically designed, finely finished, and of splendid tonal qualities, the Columbia Grafonola is the gift of gifts.

Come in and see it for yourself. In ten minutes we can demonstrate its superiority. In still less time we can play it for you and show you the *Non Set Automatic Stop*. Nothing to move or set or measure. No other phonograph has it—no other phonograph can get it. Never stops before it should. Always stops at the very end.

You want to please the kiddies, of course—well, here's your opportunity.
